Transferring Music

Listen to music on your phone. Transfer your favorite tunes today!

1. You must convert your music to either .MP3, .AAC, or .AAC+ format using the media player of your choice.
2. Remove the battery and insert the microSD™ card* (gold contacts facing down) into the slot at the top of the phone.
3. Power on the phone and connect it to your PC using a USB data cable.*
4. When the Hardware Wizard pops up, click **Cancel**.
5. The PC recognizes the phone as a **Removable Disk** under **My Computer**. Open the folder where your music is stored and transfer your files by dragging and dropping them onto the **Removable Disk** icon.
6. When finished, press the **Right Soft Key** on the phone for **Exit** and disconnect the USB cable.

Warning! Do not disconnect phone while file transfer is in progress.

Note: The number of files you can store depends on the size and format options of the memory card.

Playing Music

To listen to music that you have transferred to your phone, follow these quick easy steps:

Playing Music with the Flip Open

1. Press the  **Key**, select **Music Player (1)**, then **All Songs (1)** or **Playlists (2)**. Select a song or playlist.
2. Press  to play/pause. Press **up** or **down** on the Navigation Key to change the volume, and **left** or **right** to go to the previous or next song.
3. Press the **Left Soft Key** for **Minimize** to access other phone functionality while music is playing.

Playing Music with the Flip Closed

1. Press and **hold** the  **Key**. Select **All Songs** or a playlist. Use the left side volume keys to scroll.
2. Press  to play/pause the music. Use the  or  keys to go to the previous or next song.
3. Press and **hold** the  **Key** to exit the music player.

Video Share

Share events the moment they happen. Video Share lets you stream live video directly to friends and family.

1. Dial the 10-digit phone number of another 3G Video Share capable phone.*
2. A few seconds after initial connection, **Video Share Ready** will display at the top of both screens. At this point, either calling party may start one-way video sharing.
3. Press the **Camera Key**. It will take a few seconds to establish a video share connection.
4. If you're the recipient, press the **Left Soft Key** for **Accept** when prompted and you will see the live video from the sender's phone.
5. To end Video Sharing, select the **Stop** icon, press the **Left Soft Key**, then **Yes (1)**. If you're the sender, select **Yes (1)** or **No (2)** to either save the video clip to **My Stuff** or discard it. Only senders can save video clips sent via Video Share — recipients do not have this capability.

*Both parties must be in a 3G service area — a 3G icon and a camera icon must appear by the signal bars prior to a call being placed.
