VOICE COMMAND FEATURES

The VX6100 by LG is enabled with speaker-independent voice recognition. This technology makes it possible for any user to dial a number by speaking the name of a contact entered in the phone book or by speaking the digits of a phone number. Voice command also provides quick and easy access to other essential features and when coupled with speaker phone and driving mode, offers true hands-free usage without additional equipment.
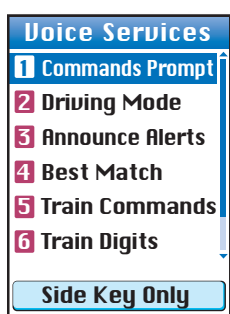

Activating Speaker Phone
1. From main screen, press the **speaker phone** icon (up) on the Navigation Key, "**Speaker On**" will appear on the screen. To deactivate, press the key again and "**Speaker Off**" will appear on the screen.

VOICE SETTINGS

Commands Prompt
